

U6 QUICK COACHES GUIDE

- We strive to HAVE FUN while learning the game of Soccer.
- This is likely a first soccer experience and may be first experience with organized sports.
- No Laps, No Lines, No Lectures. If a child is being disruptive to the point of you being unable to run the practice, ask his/her parent to be involved.
- Players come in all shapes, sizes and abilities please be inclusive.
- Remember that players look up to you. Choose your words carefully.
- Your goal is to have the players want to come back and play again.
- We appreciate your time, effort, commitment, great attitude and your smile.
- We focus on dribbling to encourage aggressive attacking players as they grow and develop. Let the kids dribble and work on this skill now. Let them make mistakes. Most simple childhood games can be modified to add dribbling. Introduce concept of passing to move ball around the field.
- We play small-sided games to help players learn the game at a faster pace. This also helps kids improve because they have more opportunities on the ball. This builds confidence over time.

U6 LAWS OF THE GAME
